№	Description	Priority	Result		
	Compatibility testing				
1	Make testing on popular browsers like Google Chrome, Safari and Firefox				
2	Make testing mobile devices like Android and iOS				
	Functional testing				
3	Check booking by the registered user	smoke			
4	Check booking by the unregistered user	smoke			
5	Check booking if to enter data yourself in Last Name and First Name fields	smoke			
6	Check booking if to enter data yourself in the Choose reservation and Select table fields	smoke			
7	Check feature select values from the dropdown list in Select table and Choose reservation fields	smoke			
8	Check if the selected place appears in You chose this place field	smoke			
9	Check the ability to confirm the reservation of the selected place	smoke			
10	Check the ability to cancel the reservation of the selected place	smoke			
11	Check if field values are restored after the page restart	critical			
14	Check if the link works at the selected place	critical			
15	Check if field values are restored after the page restart	critical			
16	Check the closure of the form by filling all fields	critical			
17	Check the closure of the form without filling all fields	critical			
	GUI				
18	Check the color of the book and cancel buttons				
19	Check if the button names are correct				
20	Check if the information in the dropdown lists is correct				
21	Check if there is a picture of the selected place when clicking on the link				
22	Check if First Name and Last Name fields are automatically filled				
23	Check the description of the selected place when clicking on the link				
24	Check the correct text help in the fields.				
	Domain testing				

Decision table (AKRESE-44)

	1	2	3	4
Choose reservation	☑	☐	☑	☐
Select table fields	☑	☐	☐	☑
Expected result	It is possible to book	It isn't possible to book, fields Select table fields and Choose reservation are highlighted in red	It isn't possible to book, the field Select table field is highlighted in red	It isn't possible to book, field Choose reservation is highlighted in red

Actual resuil					
Field Type	Dimension	Equivalence classes	Sample values	Extended result	Actual result
First Name	Length, number of characters	min ; max	2 chars; 50 chars	positive	pass
		0 (epmty); min-1	epmty string; 1;	negative	fail
		max +1, very big	51; 100 chars;	negative	fail
		Value from range (min; max)	25 chars	positive	pass
	Type of symbols	Alphabet (case sensitive or non case sensitive)	test, teSt, TEST	positive	pass
		Special	- '	positive	pass
		Hierogliphs:	n/a	negative	fail
		Language	Eng, Rus	positive	pass
		Special	!@#$%^&*()_+|=\{}[]:";<>?,./	negative	fail
		Alphanumeric	test1234	positive	pass
	Spaces present	Only spaces	n/a	negative	pass
		Space after	n/a	negative	fail
		Space in middle	n/a	negative	fail
		Space before	n/a	negative	fail
	Way is filled	Paste	pasted string (CTRL-C+CTRL-V CTR-X +CTRL-V)	positive	pass
	Defult value	blank / <default text>	<First Name>	positive	pass
